This map illustrates the geographical and administrative features of the Revsundssjön area. The central focus is the large lake, Revsundssjön, which is surrounded by numerous smaller water bodies and streams. The map uses a color-coded system to represent different land use types: green for forested areas (Skogsbygd) and yellow for developed areas (Landsbygd). A network of roads (Vägnät) and railways (Järnväg) is shown, with some areas marked as 'pågående' (ongoing). The map also includes a scale bar at the bottom, ranging from 0 to 5,000 meters, and a legend in the bottom-left corner explaining the symbols used. Various place names are labeled throughout the map, including Forsaån, Väster-Sjulsjön, Öster-Sjulsjön, and Revsundssjön. The map is oriented with North at the top.
